

PICKLEBALL DEN

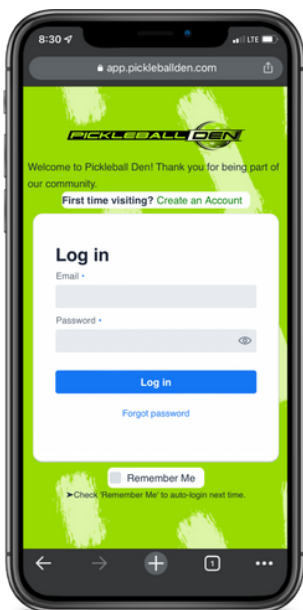

THE TECHNOLOGY POWERING THE SPORT

As the sport of pickleball grows, players have a growing need to fuel their pickleball obsession by finding clubs, tournaments, coaches, and places to play. Pickleball Den Search is a search engine that allows directors and coaches to advertise their tournaments, clinics, coaching services, leagues, and other events. It works just like Google in that players can search for and find events they are interested in.

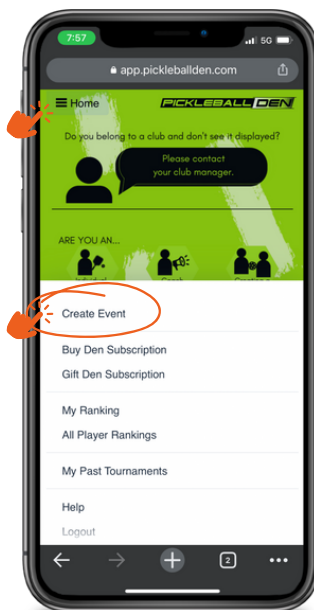

Pickleball Den is committed to growing with our players and part of that is evaluating what features would help our Pickleball Den family to grow, organize, and further enjoy the sport of pickleball. With an active Pickleball Den subscription, tournament directors may now list and advertise their events on Pickleball Den Search whether they are using our tournament software for their event or not. A listing on Pickleball Den Search allows you to enter key information about your event and once your event is shared on Search, interested players are instantly notified of your event. While other alternatives price tournament listings as high as \$500, Pickleball Den is offering this valuable service, and more, for only \$7.95 FOR AN ENTIRE YEAR.

We believe in growing the sport of pickleball by supporting tournament directors in advertising their events and helping players find those events.

1 Sign in to Pickleball Den

2 From the **Home** menu, choose **Create Event**

3 Choose **Add Tournament Listing**

FUNKY PICKLE

Ventnor Classic

www.funkypickle.com

Pickleball Den joined the Funky Pickle party in Ventnor City, New Jersey on July 30. We loved seeing tournament director Donna Reese with Pickleball Visions using our tournament software at the Funky Pickle Ventnor Classic. This pickleball block party was filled with rocking music, delicious food and drinks, awesome vendors, good vibes and fun times! Proceeds benefitted the AMI Foundation's Dr. Jan Astin Mobile Digital Mammography Van. Pickleball, funky fun, and philanthropy... what more could you ask for?!

FEATURED UPDATES

BY THE RATINGS

By the Rating is a competitive play opportunity that places players out on the courts based on their Den Global Rating. After players enter their scores, Pickleball Den software updates the player's rating automatically for the next event! When players travel to other clubs, their Den Global Rating follows them.

MESSAGE EXPIRED MEMBERSHIPS

Club managers can now message players whose memberships have recently expired.

From the club menu select **members**, then choose **message members**.

Click **expired club memberships** and select a date.

UPDATED SIMULATOR INTERFACE

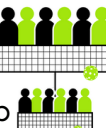

Pickleball Den's tournament simulator is a great tool to help tournament directors refine their bracket start times and maximize the available courts. Our tournament simulator now has a new and improved look to increase the functionality for our tournament directors!

SUB CLUB

Sub Club is a new feature that allows club members to run events without being a club manager. Sub club is a great tool for large clubs as players participating in a specific activity can be added to the sub club. The sub club is paired with the main parent club so only members of the main club can be added to the sub club.
